1. Scale template to 1:1 (100%)
2. Place your graphics as instructed below.
3. Ready-to-print.

scale 1:10 (10%)

composition to print

All production lines should be kept
and maintained vectorized.
For images, save with highest possible
resolution (minimum 150 dpi at 100% scale)
and all fonts converted to outlines.
See our print guide lines for more info

— **total print area = artwork area**
— **final product after sewing**
— **safety area, place logos and important elements**
to avoid seams
— **required production cut line**
